OBJECTIVE

A creative and collaborative professional with a dual focus in UI/UX design and frontend development. Experienced in crafting user-centric designs, wireframes, and prototypes, as well as building responsive, user-friendly websites and web applications using HTML, CSS, JavaScript, and React. Seeking to leverage my skills in interaction design, user research, and information architecture, alongside my technical expertise, to create intuitive, visually appealing, and efficient user experiences that enhance satisfaction and engagement.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (Bsc.CSIT)
Kathford College of Engineering and Management, Tribhuvan University Present

High School (11-12)
Capital College and Research Center (CCRC), August 2020
GPA: 3.62

PROFESSIONAL EXPERIENCE

UI/UX Intern
Antarikshya (project0rbit.com)
January 2024 - April 2024

- Collaborated with design and development teams to create intuitive, visually appealing user interfaces for web applications.
- Translated requirements into wireframes, mockups, and interactive prototypes using tools like Figma, enhancing user experience.
- Worked closely with frontend developers to implement responsive UI components using HTML, CSS, JavaScript, and React.js.
- Routinely tested websites for usability, responsiveness, and other quality factors,

identifying and troubleshooting UX issues.
